

## Ropox Vision High-Low

Vision High-Low is an electrical height adjustable table which offers both sitting and standing position.

The tiltable tabletop makes it easier to reach and shortens visual distance and therefore gives benefit for weak-sighted and users with reduced arm function.

The tabletop makes it possible to use magnets that can keep reading material or the like in place.

Arm supports provide for forearm support and slight body support.

The table can be supplied with a battery solution making it cordless.

## TECHNICAL INFORMATION

Model/Variant	A	B
Vision High-Low Size 90 x 60 cm	 Item: 20-60800	 Item: 20-60801

Model/Variant	A	B
Vision High-Low Size 120 x 60 cm	 Item: 20-60810	 Item: 20-60811
